27 March 1946

Dear Professor Haldane:

Upon my return to Washington I took the liberty of asking Dr. Morales, who was formerly in our department of biophysics, to comment on your paper. In his comments it will be noted that we (not Morales) are in accord (p. 6) with reference to the general type of tissue arrangement. Also, p. 7a-10 go further than our papers in making applications in the field of deep sea diving.

I hope that you will see fit to publish your paper. Dr. Morales' reprints are included for reference.

With kindest personal regards, I am

Sincerely yours,

A. R. BEHNKE
Captain, (MC) USN

Professor J. B. S. Haldane,
Department of Genetics,
University of London,
London, England

*Thank him. Can't publish this year.
Morales looks interesting.*
