

HALDANE/1/5/3/30 f.1

H.M.S. DOLPHIN,
Gosport, Hants.

22/2/43.

Dear Haldane,

The summary of your physiological results, of which this letter acknowledges a copy, should be transmitted to Captain POPPEN, U.S.N. in continuation of our settled policy of interchange of scientific information with our Allies, and to the U.S.S.R. Navy via the Soviet Embassy, in exchange for further information relevant to our investigations from both sources.

Although the information in your summary can hardly be called highly confidential, it is perhaps best to mark any copy "Secret" to be on the safe side.

Yours sincerely,

C. H. Pratt

SPECIALIST IN PHYSIOLOGY.

Professor J. B. S. HALDANE, *Sec. R.S.*
Department of Biometry,
Rothamsted Experimental Station,
HARPENDEN,
Herts.
