April 3rd 1937.

Dear Dr. Penrose,

I believe Professor
Hopfen has recently written to you
asking whether I may come up
and see you about my work.
I have been doing some experiments
with Symbolism, which have, I think,
quite interesting results. I am
very anxious to carry out a
further test with certain kinds of
benotic individuals, and should
greatly appreciate the opportunity
of asking your advice on the matter.

If it is convenient for you to see
me perhaps you would drop me
a note at the Department, as
Professor Hoegsen is no longer here.
I need scarcely say how very
grateful I should be for any help
you could give me.

Yours sincerely,
Gertrude Keir.
