Dear Professor Penrose,

Further to our telephone conversation today I enclose a copy of the World Health Organisation letter, reference C.L. 41. 1964, dated 15th October. I would be most grateful if you could let me have, as soon as possible, a short autobiography stressing the international value of your original work in the field of mental subnormality. We are obliged to submit the name of our selected candidate for this prize by 1st December, so if at all possible, could you please let me have the necessary details by the end of next week.

With renewed thanks for your kind co-operation.

Yours sincerely,

A handwritten signature in cursive script that reads 'R. V. Phillipson'.
